🪪 Professional Summary

Full-Stack Developer with 4 years of experience in building scalable and maintainable web applications using modern technologies such as React.js, Node.js, TypeScript, JavaScript, Nest.js, Vite.js, and Tailwind CSS. Currently enrolled in a Data Science, Machine Learning & AI Bootcamp at Neue Fische, where I am working on real-world projects involving Python, machine learning, and artificial intelligence. Skilled in modular UI development with React Hooks and Redux, with a strong focus on accessibility and performance-driven design systems. Experienced in automated testing using Jest, Selenium, Cypress, and Playwright, along with integrating RESTful APIs in monorepo architectures

---

💼 Experience

Autohaus Royal GmbH   May 2024 – Nov 2024 | Berlin
Full-Stack Developer

- Architected and developed microservices using Node.js, NestJS, TypeORM, React, Next.js, and Javascript, TypeScript for automotive management systems.
- Built reusable UI components with React, Next.js, Ant Design, optimizing performance and maintainability.
- Managed multiple databases (MongoDB, CockroachDB, PostgreSQL) and implemented RESTful APIs for 15+ intercon- nected services.
- Led the development of key projects, including Business UI, API, and Admin; Trade-In UI and API; and Marketing Service UI, API, and Admin.
- Utilized tools such as GitHub, Visual Studio Code, Docker, Docker Compose, Monday.com, Jira.

elsweyer+hoffmann Berlin-Brandenburg GmbH   Jan 2022 – Oct 2023 | Berlin
Full-Stack Web Developer

- Developed high-traffic web applications using React, Next.js, Vite.js, and GraphQL for education and virtual event platforms.
- Implemented responsive layouts with Tailwind CSS and Sass, focusing on accessibility and user experience.
- Built scalable backend solutions using Node.js, Apollo Server, and MongoDB for seamless data management.
- Enhanced application performance through efficient state management using Redux and custom hooks.
- Actively involved in the development of projects including Seidual, Ausbildungplatz, Virtual Event, E-Learning, Seidual- Account, and Seidual-Admin.
- Used tools such as GitHub, Prisma, Monday.com, Overleaf, Google Docs, Visual Studio, Slack, Docker.

Humachine Technologies Private Limited   Jul 2020 – Dec 2021 | Hyderabad
Full-Stack Web and Mobile Developer

- Created responsive web interfaces using React.js and Tailwind CSS with Apollo GraphQL integration.
- Developed backend services using Node.js, MongoDB, and Mongoose.js for robust data management.
- Built mobile applications using Flutter and implemented form handling with React Hook Form.
- Maintained code quality through version control and collaboration using GitHub and Jira.
- Played an active role in the development of key projects, including Zuhauseisthier, Rental-GraphQL, Seidual-Admin, and Elearning-Admin.
- Worked with Strapi, Google Docs, GitHub, Visual Studio, Slack, Docker.

🎓 Education

Data Science, Machine Learning & Al Bootcamp   Mar 2025 – Present | Berlin
Neue Fische - School and Pool for Digital Talent
Python, Data Analysis, Machine Learning, Deep Learning, Al, Real-world Projects.

MBA in Technology Management   2013 – 2016 | Hyderabad
University College of Commerce and Business Management
Focus: IT, Computer Science, Finance.

B.Sc in Computer Science   2010 – 2013 | Warangal
Kakatiya University
Focus: Mathematics, Statistics, Computer Science.
